

How to install Keil μ Vision4

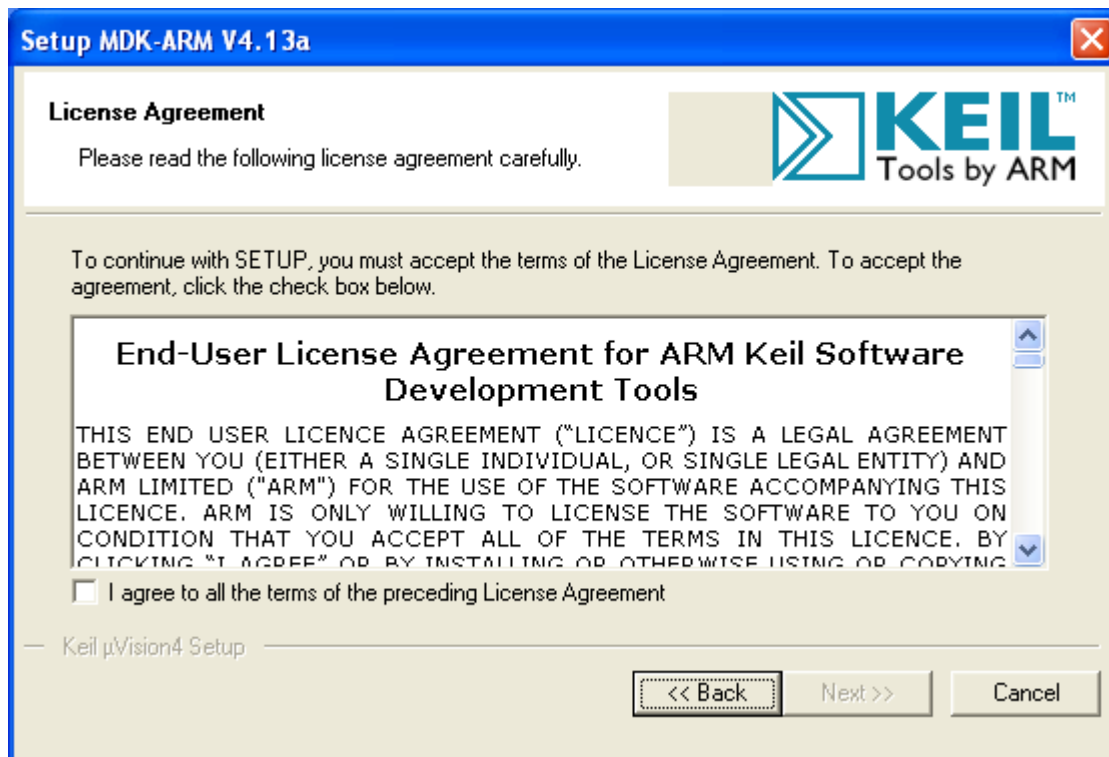

The Evaluation version of Keil for ARM is available for download at <http://www.keil.com/demo/>

Once downloaded, follow further steps:

1. Run setup file MDK-ARM V4.13a.exe (Double click the file icon)
2. Setup Window appears....

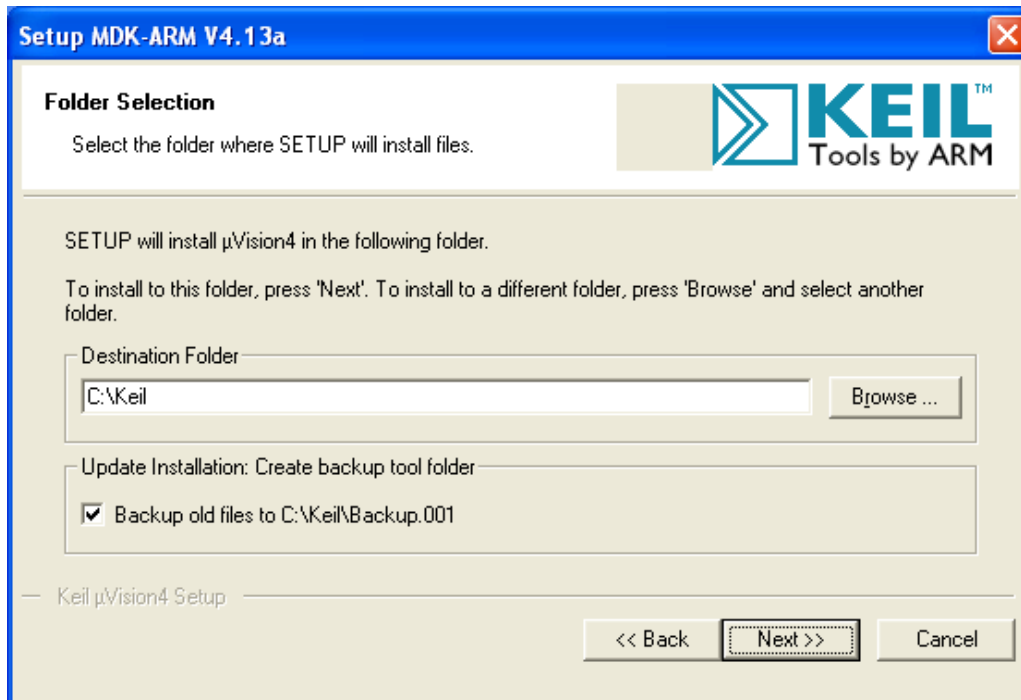

3. Click Next.

4. Click Checkbox of agreement in order to proceed and click Next.

5. In folder selection window, select suitable directory for the installation and press next.
(default directory should work fine!)

The screenshot shows the 'Setup MDK-ARM V4.13a' window with the 'Folder Selection' tab active. The window has a blue title bar and a logo for 'KEIL Tools by ARM' in the top right. The main text says 'Select the folder where SETUP will install files.' Below this, it states 'SETUP will install µVision4 in the following folder.' and provides instructions: 'To install to this folder, press 'Next'. To install to a different folder, press 'Browse' and select another folder.' There is a text box for 'Destination Folder' containing 'C:\Keil' and a 'Browse ...' button. Below that is a section for 'Update Installation: Create backup tool folder' with a checked checkbox 'Backup old files to C:\Keil\Backup.001'. At the bottom, there are three buttons: '<< Back', 'Next >>', and 'Cancel'. A progress bar at the bottom left shows 'Keil µVision4 Setup'.

Setup MDK-ARM V4.13a
